

Getting Started with HashiCorp Consul

Objective 8 - Lab Guide

1. View the current ACL policies in Consul

a) `$ consul acl policy list`

2. Add the token at the end for authentication

a) `$ consul acl policy list -token <token>`

3. Copy ID of the eCommerce policy

4. Create a new ACL token for the eCommerce web-server-01

a) `$ consul acl token create -description "Token for web-server-01" -policy-id <policy_id_for_eCommerce_policy> -token <token>`
