Getting Started with HashiCorp Consul
Objective 8 - Lab Guide

1. **Download/copy the example ACL policy from GitHub**
   a) **https://github.com/btkrausen/hashicorp/blob/master/consul/acl_policy.hcl**
   b) **Rename to rules.hcl (if you want the commands in the lab to match)**

2. **Create the new policy using the CLI**
   a) **$ consul acl policy -name "eCommerce" -description "eCommerce App" -rules @rules.hcl -token <token>**
